WHEATLEY
Valve Parts

Norwood Valve, LLC is a valve and equipment supplier located in Houston, TX. Norwood Valve supports oil & gas pipeline & gathering production, chemical, power, and water industries. Working with manufacturers and stocking partners, Norwood Valve can help with an array of valve types for any application. Norwood Valve specializes in WHEATLEY & TOM WHEATLEY Check Valves. Norwood Valve carries on the Wheatley Family tradition of excellence in the valve industry going back to 1916.

Valve Manufacturers and Types

WHEATLEY/TOM WHEATLEY
API 6D Swing Check Valves
API 6D Piston Check Valves
API 6D Nozzle Check Valves
Threaded Swing Check Valves
Subsea Check Valves
API 6A Swing Check Valves

WKM - Ball, HP Butterfly, Thru Conduit Gate Valves
NUTRON - Ball Valves
GROVE- Trunnion Ball Valves, Thru Conduit Gate Valves
GENERAL - Double Block & Bleed Plug Valves
ORBIT - Rising Stem Ball Valves

MICROFINISH
API 6D Trunnion Ball Valves
Floating Ball Valves
Swing Check Valves
Exotic Alloy Valves
Brine Service Valves
Cryogenic Valves

STREAM-FLO STREAM-FLO FUSION
API 6D Swing Check Valves API 6D Trunnion Ball Valves
API 6D Piston Check Valves Flanged Floating Ball Valves
API 6D Nozzle Check Valves Threaded / Socketweld Ball Valves
API-6A Swing Check Valves
Wafer Check Valves
Threaded Check Valves

CHECK-ALL VALVE
Silent Check Valves
Spring Loaded Check Valves
Poppet Check Valves
Inline Check Valves

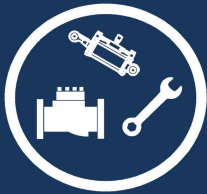

CHAMPION VALVE
Wafer Style Dual Check Valves
Wafer Style Rubber Lined Dual Check Valves
Wafer Style Single Disc Check Valves
Wafer Style Single Disc Short Pattern Check Valves
Wafer Style Single Disc External Spring Check Valves
Long Pattern Axial Flow Nozzle Check Valves

AMERICAN WHEATLEY
Triple Duty (TDV) Valves
Suction Diffusers/Flow Diverters
Fabricated Vertical Pipeline Strainers
Y Strainers
Non-Slam Check Valves
Butterfly Valves
Balancing Valves

SCV VALVE
API 6D Thru Conduit Gate Valves
API 6D Trunnion Ball Valves
API 6D Swing Check Valves
API 6D Piston Check Valves
Floating Ball Valves
Lubricated Plug Valves

Norwood Valve Supplies Check Valve Modifications

Lock Open Levers / Gear Operator
Hydraulic Dampener (Slam Retarder)
Counterweight Assembly
Spring Return Clapper
Limit Switch / Position Indicator
Fusible Link

Subsea Modifications
Conduit Clapper
Flange Face Change (RF/RJ/WE)
Seal Change
Seat Overlay
Hydrotesting

Norwood Valve Supplies Parts for *Current **WHEATLEY** Valves and Valves No Longer in Production

Robert Wheatly Valve

*Current WHEATLEY Valve Model 510/511
*Current TOM WHEATLEY Valve Model 510/511
*Current TOM WHEATLEY Valve Ville Platte, LA
*Current TOM WHEATLEY Piston Check OKC, OK

In 1916, brothers Frank and Tom Wheatley founded Wheatley Bros Foundry & Machine in Kansas City, MO. By 1926, with an ever increasing demand for oilfield products in the mid-continent, Wheatley Bros opened a facility in Tulsa, OK. Their new company, focused on oil & gas equipment, was named Wheatley Bros Pump & Valve. In 1934, the Wheatley brothers decided to part ways. Legend has it that the decision was made on a coin toss. This led to Wheatley Bros becoming Frank Wheatley Pump & Valve and Tom moving to Houston, TX founding the Tom Wheatley Company in 1936. In the meantime, brother Charles Wheatley was working hard at a professional baseball career as a pitcher. Charles made it to the majors in 1912. He holds an A.L. record for the most wild pitches thrown in a single game (5). Upon retiring from baseball, Charles went to work for his older brother Frank. In 1954, Charles left Frank Wheatley Pump and Valve and founded the Charles Wheatley Company. From this point the three brothers were competing and becoming leaders in the valve industry. Each had their notoriety for specific products, but all were known for check valves. FWI (Frank Wheatley Industries) was first to sell in 1968. In 1972, Tesoro acquired the Charles Wheatley Company. Tesoro then purchased FWI as well in 1973. This merger led to the WHEATLEY brand manufactured today. The Tom Wheatley Company sold in 1982. Over the years the brands changed hands but persisted. In 1993 Wheatley TXT acquired Tom Wheatley Valve Co. This brought the Wheatley brothers' companies back together again after 59 years. WHEATLEY & TOM WHEATLEY brands are currently owned and manufactured by Cameron SLB. Norwood Valve, LLC carries on the Wheatley Family legacy of quality, innovation, and service in the valve industry. Norwood Valve works to support older WHEATLEY / TOM WHEATLEY / FRANK WHEATLEY / CHARLES WHEATLEY Valves no longer in productions. Please contact us or follow the link to find out more.
